DETAILED ACTION

Allowable Subject Matter

1. Claims 3-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The above Claims are allowable because the prior art of record fails to disclose, teach, or suggest, in combination with the other claim limitations; a protection device for an electrical source powering an electrical component or motor, which comprises a test unit that provides a signal indicative of the level of availability of the power source to a control unit, which is interposed between the electrical source and the electrical component, and the control unit includes an inverter that can supply a current of variable frequency to the electric component to limit the quantity of energy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Amendment, filed 12/12/2005, with respect to the above claims have been fully considered and are persuasive. The rejection/objection of these has been withdrawn.
